PARTS OF A CORAL

Lead-in activity

Tiny, Floating Coral includes much of the vocabulary needed to identify the parts of a coral. Show children the stages of metamorphosis and the emergence of the mouth and tentacles.

Main activity

Print out the next page and ask them to find words in the word bank to label the parts of a coral.

Name

PARTS OF A CORAL

Word bank

tentacle

stomach

mouth

corallite
(hard skeleton)

algae
(inside tentacle)
