COUNTING SHEEP...

NUMBERS AND NUMBER ORDER

These cards are a great way to begin exploring number. Use them to order numbers to 20; identify the digits in each number; understand the value of each digit (e.g. 12 is made up of one ten and two ones); or play 'higher or lower'. As a challenge, use the cards to explore number bonds. A number bond is two numbers that add together to make another number, e.g. $2 + 18 = 20$.

Use the cards for writing practice, too!
