IF IT'S NOON ON THE MOON... TIME

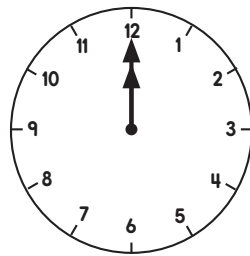

Learning about time is complicated, so here are two ways to introduce the idea to young children. The activity below introduces the idea of time changing when you travel round the world. On the next page, the timetable introduces telling the time and the passing of time.

When it's noon in New York, USA, what time is it in Manaus, Brazil?

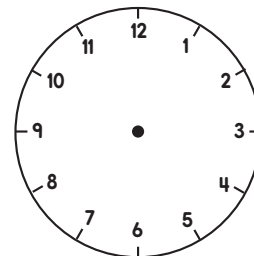

Can you work it out and then draw the time on the clock?

Do it for each pair of cities.

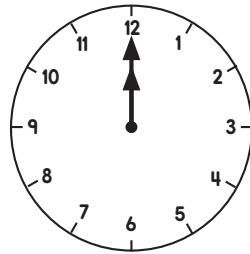

NEW YORK, USA
